---

As I sit in the warm confines of my study, protected from the biting cold outside, two planets have changed their signs in the last few hours. Today, Mars has got out of the clutches of Rahu and has entered Capricorn (Makar), its Jyotish sign of exaltation (Uccha Rashi). And, Mercury has left the watery sign of Scorpio (Vrishchik) to enter the fiery Sagittarius (Dhanu) and has now come again in the shadow of Rahu. Let us take a look at the changes and happenings which these two transits will bring forth...

Makar is the Uccha rashi for Mangal and this usually aggressive planet acquires tact, speculative abilities and an increased willpower when it enters this sign ruled by Saturn. The present stay of Mars in this sign will end on 15th February 2011. The previous transit of Mars in Capricorn was from 29th January 2009 to 7th March 2009. The next transit of Mangal in Makar rashi will be from 18th December 2012 to 25th January 2013. During this transit, from 14th January 2011 to 15th February 2011, Mars and Sun will be in a yuti in Makar rashi and they will be joined by Mercury on 31st January 2011.

Mercury (Budh) was already in transit in Dhanu rashi which it had entered on 26th November 2010, but this fast moving grah had retrograded back to Scorpio (Vrishchik) on 23rd December 2010. Today, Budh has re-entered Dhanu and will stay in this sign for next 23 days, entering Makar rashi on 31st January 2011. The next transit of Mercury in Sagittarius will be from January 4th 2012 to January 24th 2012. Mercury has joined Rahu and Sun which are already in transit in Dhanu rashi.

More frauds and scams in the banking and finance sector will come to light. At the same time, strong and long term measures will be taken by the regulatory bodies to prevent any more financial scams in future. In India, the government will be able to control the rise in prices of essential commodities but it will still take more than a year when the prices stabilise to realistic levels. Convictions and punishments will take place quite frequently. Some real implementation of justice will be there.

For US and European nations, the economic recovery begins with the transit of Mars in Capricorn and quite good results will be seen in next six months. But, the stock markets are bound to take a fall in next one month as the funds start getting withdrawn from the overseas markets to the domestic ones. Markets in Asia, mainly in India, are going to suffer big setbacks in 2011 beginning with the slide in stocks as Mars enters Capricorn and Mercury in Sagittarius.

For the twelve moon signs and ascendants, these transits will have the following effects:

1. Aries - Mesh: Good improvement in performance at work, promotion, increase in income, improvement in health, appreciation from superiors for rising to the occasion and solving some difficult problems at work.
2. Taurus - Vrishabh: Health problems related to respiration and heart, business growth and
