Today evening the Islamic terrorists blasted six bombs in the tourist city of Jaipur in India. Jaipur is known as a famous tourist spot in India. It is also a centre for gems and jewelery trade. Astrological gems like Sapphire, Emerald, Ruby, etc are polished and cut and then exported from Jaipur to all parts of the world.

Astrologer Ashutosh says -

Mars and Ketu are transiting together in Cancer. Under such a combination increased volatile and unrestfull activities by negative forces are seen. In last one week, Indian borders have witnessed some heavy infiltrations by terrorists. Now, this series of bomb blasts.

This combination of Mars-Ketu was also there when 9-11 terrorist attacks took place. These two planets will stay in same sign till June 21st 2008. Still more than one month is left. Some more such cowardly terrorist acts are anticipated.
