Jupiter enters Aquarius on 20th December 2009.

To know more about this transit of Guru in Kumbh and its effect on general life Jyotish Biz interviewed Astrologer Ashutosh. We also asked him about the general effect of this Jupiter transit in the twelve moon signs.

Astrologer Ashutosh is a famous Vedic Astrologer (Jyotishi) and a Vastu Expert.

The Interview:

Jyotish Biz: Namaskar! Ashutosh Ji.

Astrologer Ashutosh: Namaskar!!

Jyotish Biz: Ashutosh Ji! Jupiter is changing signs today. It leaves Capricorn and enters Aquarius. What will be the general effects of this change in planetary positions?

Astrologer Ashutosh: Well! As we know that Jupiter is the most beneficial among the nine Jyotish Planets. It is also called Guru and Brihaspati in Sanskrit. Guru is the Sanskrit term for a teacher and Brihaspati is the name of the mythological guru of the celestial Gods as per the Indian Vedic mythology.

Jyotish Biz: Ah! That's interesting.

Astrologer Ashutosh: Yes! Guru is the karaka for governance, education, law, religion and discipline. An individual who has a powerful Jupiter in his horoscope has an abundance of these interests and traits. That means that he/she would like to create some self-disciplines, would be more religiously bent, would take up education and profession related to education and law, and so on.

Jyotish Biz: That means that teachers, religious, lawyers and judges must be having a

strong Jupiter in their horoscopes.

Astrologer Ashutosh: In a way. In most cases, Jupiter is strong either by its placement or by being part of a powerful yoga in these kundalis.

Jyotish Biz: In most part of 2009, Brihaspati or Jupiter was in its sign of debilitation. Now, when it enters Aquarius or Kumbha, how can we expect to see the improvements generally.

Astrologer Ashutosh: Capricorn is Jupiter's Neecha Rashi or the sign of debilitation. It means that Jupiter's usual beneficial results are not observed during its transit in Capricorn. We can see that the governments all over the world are facing serious economic crisis. The people in power have failed to deliver anything substantial during 2009. There have been no strong and effective decisions at all. The general population is suffering and the rule makers are doing almost nothing. This is nothing but a clear result of Jupiter's debilitation.

Jyotish Biz: Okay!

Astrologer Ashutosh: Now, as it moves to Aquarius or Kumbha the movement back to a good governance will start. Leaders will start taking responsible steps. We cannot say that there will be less problems but we can say that there will be more and effective solutions available for the problems.

Kumbh is the sign of Saturn. Jupiter becomes highly pious in this sign though it is not Jupiter's own sign or its sign of exaltation. This transit in Aquarius also marks the holding of the Kumbh Fair in the holy city of Haridwar, in northern India. Million of people from all over the world take bath in river Ganga during this fair.

Jyotish Biz: Wow! Thats interesting.

Astrologer Ashutosh: Yes! India is a land of religious importance and Haridwar is the gateway to heavens.

Jyotish Biz: Gateway to heavens?

Astrologer Ashutosh: Yes! It is so called because Haridwar lies at the foothills of Himalayas. It is the first stop on the religious circuit in the Himalayas in India.

Jyotish Biz: Oh! Now please tell us how long this transit of Jupiter will be in Aquarius?

Astrologer Ashutosh: Jupiter will be in Aquarius from 20th December 2009 to 2nd May 2010. It will then shift to Pisces or Meen rashi. Then, on 1st November 2010 Guru will retrograde back to Kumbh till it gets directional and moves back to Pisces on 6th December 2010.

Jyotish Biz: Ashutosh Ji! Can you give a brief description of the effects of this transit for the people born under the different moon signs. The good and the bad results in short.
