After a stay of roughly eighteen months in the fixed sign Simha, Rahu is entering Karka, a movable sign. As Ketu is the opposite end of the Rahu-Ketu axis, it also shifts from Kumbh, a fixed sign, to Makar, another movable sign. Rahu-Ketu had entered this Leo-Aquarius placement on 30th January 2016. Rahu-Ketu will transit in this Cancer-Capricorn position from 18th August 2017 to 7th March 2019, a period of approximately eighteen months.

Rahu-Ketu will transit in the Simha-Kumbh rashis again from 5th September 2034 to 24th March 2036. And, after this 2017-19 transit, they again will be in the Karka-Makar signs from 24th March 2036 to 11th October 2037.

Previous transits of Rahu-Ketu in the Karka-Makar position were as follows -

- 11th January 1999 to 30th July 2000
- 6th June 1980 to 24th December 1981
- 30th October 1961 to 19th May 1963
- 26th March 1943 to 12th October 1944
- 18th August 1924 to 7th March 1926

Rahu in Cancer provokes long term changes in politics and economics. Thinkers become political leaders and rational thoughts get more importance than orthodox beliefs. People begin to strive for positive changes. But, in some cases, this transit gives rise to extremist revolutionary thinking too.

Such a transit witnessed the beginning of the defeat of the Axis forces in WW II; formation of liberated government of India in exile by Netaji Subhash Chandra Bose; discovery of DNA by Oswald Avery; Military rule began in Burma; Algeria became independent; world almost ended due to Cuban missile crisis; Portugal rule ended in Goa; Iran-Iraq war began; General Musharraf imposed military rule in Pakistan; and many other major events. In short, world is in for big turmoil in the next eighteen months.

This transit is especially important for India as, after India became an independent nation in 1947, Rahu-Ketu have been in this transit three times, and during two of them India was forced into small wars with its neighbouring nations. This happened in 1962 with China and in 1999 with Pakistan.

Interestingly, in the 1971 war with Pakistan, Rahu-Ketu were in exact opposite placement in the Capricorn-Cancer axis. Looking at the recent border troubles with China and the situation in Kashmir the chances of another war like situation has become a high possibility today.

During the 1980-81 transit of Rahu in Cancer the political situation changed in India by the death of Sanjay Gandhi in an airplane crash and the rise of Khalistan movement in Punjab, which actually turned into a radically violent and armed movement during this period.
