Ritu Tyagi Asks: I am wearing a 6.25 Ratti Ruby in the ring finger of my right hand Since August 2011. I am also wearing an Opal in the middle finger of my right hand. But I didn't feel any progress in my career. My birth details are 13th May 1987, 05:00 PM, Hapur, Ghaziabad, U.P, India. My question is - When will my job change and when will my career improve? Please advise me. Thanks!

Astrologer Ashutosh: Ms Ritu! The Ruby which you are wearing is okay for you but the Opal is not.

These two gemstones' energies are opposite to each other and you are receiving zero results by wearing them together. Remove the Opal and re-purify the Ruby receive its actual effects and full benefits.

Your ascendant and moon sign both are Leo (Simha). And, you are in a favorable Mahadasha of Surya. My suggestion is that you should wear a Sindoori Coral too along with the Ruby. This gemstone is also worn on the ring finger and in a copper or gold ring. You can wear it on your left hand.

In next few months there will be two opportunities for you regarding career development through job change. The first one will be in the last two weeks of April 2012 and the second one will be in the last two weeks of June 2012. Your job will change and the work responsibilities in the new job will be very high. But, you will do well in that new job.

Some remedies:

1. Keep water in a copper vessel overnight and drink it in the morning.
2. Offer water to the rising Sun every morning while chanting the Gayatri Mantra seven times.
3. Avoid wearing Grey and brown coloured clothes in 2012. Wear Red and Yellow when you are attending any important interview or meeting.
